LAURA RAUCH

Midcontinent Independent System Operator

Laura is the Director of Resource Adequacy Coordination at MISO where she works with a broad group of stakeholders to provide transparency around the long-term resource adequacy needs of the MISO region. Throughout her career, she has been responsible for many long-term planning efforts, including managing NERC Transmission Planning (TPL) compliance, as well as the evaluation of transmission service and generator interconnection requests. She has led planning efforts to

support state and federal policies, including directing the business case development for MISO's Multi Value Project (MVP) portfolio and leading the effort to ensure compliance with FERC Order 1000.

Laura holds a Bachelor of Science degree in electrical engineering from Michigan Technological University and a Master of Business Administration from Indiana University. She is a Professional Engineer, registered in the state of Indiana.
