ANDREW BOCHMAN

Idaho National Laboratory

Andy is senior grid strategist with National and Homeland Security at Idaho National Lab. To senior U.S. and international government and industry leaders, he provides strategic guidance on topics at the intersection of critical infrastructure security, and resilience. His career began with the US Air Force and before he joined INL, Andy was in several

cybersecurity start-ups, was global energy and utilities security lead at IBM, and was a senior advisor at the Chertoff Group in Washington, DC. A member of the global advisory board for the Control Systems Cyber Security Association International (CS2AI), Andy is on the advisory committee to the SANS security training institute and a cybersecurity subject matter expert listed with the U.S. State Department Speakers Bureau. In 2018 his publications have included "The Missing Chief Security Officer" (CXO) and "Internet Insecurity: the Brutal Truth" (HBR), and "Supply Chain in the Software Era" (Atlantic Council).
