## DAVID CAGIGAL

### State of Wisconsin

David was appointed Chief Information Officer for the State of Wisconsin in November 2012. As CIO, he also serves as division administrator for the Division of Enterprise Technology (DET). DET manages the State's IT assets and provides technology to State agencies such as computer services, voice-data-video telecommunications, and print and mail services.

David is a seasoned executive with over 25 years of experience in information technology visioning, strategic planning, and management. He is experienced in converging business strategies with ever-changing and innovating information technologies. He also identifies and implements the appropriate change management processes and risk-mitigating strategies for each unique culture. David has held executive IT positions at Alliant Energy, DeVry University, DePaul University, Maytag, and Amoco. He is passionate about education reform and 21st Century Learning Strategies through technology innovations in collaboration with teachers, administrators, parents, communities, and, most importantly, students. His specialties include strategic planning, budget management, program management, business intelligence, data analytics, risk analysis, quality management, business continuity, disaster response, technology implementations and support, cybersecurity operations, and training/development of personnel. David has served as chair of Technology Advisory Council with the Edison Electric Institute and as an Advisory Board member with UW-Madison's Erdman Center. He currently serves on the Wisconsin Homeland Security Council; the Wisconsin Cyber Strategy & Planning Working Group (chair); UW-Whitewater's Technology Program Advisory Board; the Wisconsin Broadband Stakeholder Working Group (co-chair); and the Wisconsin Digital Government Summit Advisory Board. He holds a BS and an MBA from DePaul University.
