HECTOR ARTZE

Navigant

Hector Artze is a Managing Director in Navigant's Energy practice where he leads the global Energy Systems Transformation team focusing on grid modernization and hardening; distributed energy resources and renewables integration; and risk, compliance and security. His professional career spans more than 30 years in the electrical utility field. Mr.

Artze assists utility and governmental clients with their grid strategy; leveraging technologies to transform the business and organization; and mitigate risk. Mr. Artze's relevant expertise includes distribution operations, asset management, reliability, emergency restoration processes, evaluation and implementation of distribution technologies, microgrid evaluations, process and quality improvement. Prior to consulting, Mr. Artze worked 14 years at Florida Power and Light, a major investor-owned electric utility in Florida focusing on emergency restoration processes, process and quality improvement, key customer account management, energy conservation, as well as electrical distribution engineering and construction.
